

HP LARGE-FORMAT SOLUTIONS FOR GEOSPATIAL PROFESSIONALS

The GIS industry has changed dramatically over the course of the last decade. Digitization is a key driver of this change, generating new ways of working in terms of **remote collaboration**, **convenient file sharing**, and sophisticated **security** to counter cyberattacks. In particular, security protocols are gaining increasing importance for organizations: since early 2020, cyberattacks are the fastest growing crime in the U.S. with a 400% increase.¹ At the same time, **file sizes are growing exponentially**—adding another layer of complexity. **Our goal** is to stay ahead of your needs and to **make printing as simple, powerful, and secure** as possible while **delivering the fast speeds and high-quality results demanded**. With a targeted portfolio of solutions for GIS applications to choose from, you can be sure to find one that's just right for your needs.

PRECISION AND EFFICIENCY

As geospatial professionals, you have the need to handle complex files and communicate broad-scale spatial information in the most vivid, visual detail. Our portfolio of HP DesignJet and PageWide XL printers supports the high requirements in the GIS sector and provides the fast speeds and high file-processing capabilities that can boost your office productivity.

CONTROL YOUR PRINTING COSTS

Track printing data with HP SmartTracker and easily create consolidated reports to analyze your printing costs or enable reimbursement.

STREAMLINE YOUR WORKFLOW

Accelerate geospatial applications with HP SmartStream software—start printing in 50% of the time.²

SEND MULTIPLE FILES WITH ONE CLICK³

Optimize media usage and costs and, with one click,³ print the most common file formats from a PC or Mac.

ULTIMATE SECURITY

Firewalls alone can't withstand attacks from sophisticated hackers. You need the secure large-format printers from HP to help protect your devices, data, and documents.

PROTECT YOUR DEVICES

Rely on outstanding network protection with HP Connection Inspector, HP Secure Boot, and Whitelisting. Keep devices secure—with HP Jet Advantage Security Manager software.⁴

PROTECT YOUR DATA

Get unique data protection with encrypted communications and Access Control List.

PROTECT YOUR DOCUMENTS

Control who accesses the printer and its confidential documents with secure PIN printing.
