

Blue Angel certified HP printing systems

according to DE-UZ 205 and RAL-UZ 171 basic award criteria

The environmental goal of HP is to provide products and services that are environmentally sound throughout their life cycles. Also, HP is committed to conduct worldwide operations in an environmentally responsible manner. Therefore, HP incorporates guidelines from the world's oldest eco label Blue Angel* into its product design and certifies a wide range of printing systems** in different user segments.

The German Blue Angel environmental label is awarded to HP printing systems for meeting more than 100 strict criteria as defined by DE-UZ 205 (formerly RAL-UZ 205; valid as of January 2017) or the previous version RAL-UZ 171 (valid until December 2017).

Original HP toner cartridges as well as original HP ink cartridges for certified HP printing systems fulfill strict Blue Angel requirements and are assessed as part of the whole printing system. Thus, HP can only ensure compliance of this whole printing system with the Blue Angel criteria when they are operated with original HP toner or ink cartridges.

HP provides a Blue Angel User Information document for printing systems certified with the Blue Angel in Germany. These documents display relevant environmental product features in detail. They can be accessed [here](#) on the HP website.

More information on the Blue Angel and certified HP products is available on the [Blue Angel section of the HP website](#).

The following HP printing systems are awarded with the environmental label Blue Angel acc. to DE-UZ 205 of the Federal Environmental Agency in Germany:

Status: 4 March 2020

www.blauer-engel.de/uz205

The Blue Angel eco label demonstrates compliance with more than 100 strict criteria, e.g. for the HP LaserJet Enterprise M607dn certified according to DE-UZ 205 in Germany.
