

Transform employee experiences

HP Managed Device Services: Experience Management

The ultimate advisors to keep you ahead

Maximize your investment in HP insights and analytics¹ with a data driven managed service, providing greater visibility to enhance your employee experience. When HP manages your insights on your behalf, it gives back crucial time to your employees while delivering detailed analysis, recommendations, and results that improve employee digital experience and boosts business growth.

Collaboration that improves experiences – delivered by HP Experts

Offload device management for better results

Take advantage of efficient device management² with HP monitoring your devices for updates and vulnerabilities so your employees stay up and running.

Keep employees top of mind

Boost employee satisfaction by keeping their tech experience top of mind and allowing HP to correlate end user and endpoint data to drive improvement and innovation.

Leverage the best of the best at HP

Ensure you have the right solutions for your workforce with dedicated HP Experts, making it easier to strategize and execute on data-driven recommendations.

Stay one step ahead with HP Proactive Insights

Get the most out of Proactive Insights with Experience Management, leveraging HP Experts to improve your employee experiences through valuable collaboration. Drive fleet optimization within your environment with access to a breadth of insights,¹ helping you stay one step ahead of issues. With device telemetry easily accessible, HP helps you scale IT efficiency, maximize employee productivity, and create digital experiences that empower your people.

1. Select HP Workforce Solutions require an HP Insights agent for Windows, Mac, Android, available for download at <https://admin.hp.com/software>. For full system requirements and services that require the agent, please visit <https://admin.hp.com/requirements>. The agent collects telemetry and analytics around devices and applications that integrate into the Workforce Experience platform and is not sold as a standalone service. Internet access with connection to the Workforce Experience platform is required. HP follows stringent GDPR privacy regulations, and the platform is ISO27001, ISO27701, ISO27017 and SOC2 Type2 certified for Information Security.
2. Management is provided by HP Service Experts using HP Proactive Insights and/or NexThink tool suites. Customers with existing NexThink software may have HP Service Experts manage the devices leveraging their existing NexThink licenses they already have. Please check availability of options in your country.

HP Services are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service, or the HP Limited Warranty provided with your HP Product.
