

Stay ahead of security threats to support hybrid work

HP Print Security Software Solutions

Simplified secure device and print management

HP Print Security Software Solutions provide simplified secure print management to the distributed workforce, reducing security risks, improving IT efficiencies, and enhancing employee experiences.

These solutions help protect data and documents, control user access, and extend modern authentication to print.

EMBRACE MODERN IDENTITY MANAGEMENT AND ACCESS CONTROL

Benefit from mobile-driven authentication flows with multi-factor and role-based access control policies for a unified user experience, beyond the PC.

PROTECT DATA AND DOCUMENT

End-to-end encryption of data and documents help to enforce your document security and data privacy objectives.

MAINTAIN DATA PRIVACY, CONTROL, AND COMPLIANCE

Get a seamless, single sign-on experience that remains secure while reducing time to execute the document workflow at the device level.

HP Print Security Software Solutions

HP Advance

Transform digital processes with HP Advance—a secure, flexible solution. This scalable document management software suite helps you increase workflow efficiencies and reduce costs.¹

HP Security Manager

HP Security Manager is our most comprehensive printing security solution. It helps you protect your fleet with simple, policy-based print security. It does the hard work of ensuring fleet-wide compliance with your security policy, so you don't have to.²

HP Secure Print and Insights

Cloud native pull printing software that helps to increase the security of your print environment. Print sensitive documents without security worries, reduce waste from accidental and forgotten print jobs and gain comprehensive analytics on print activity across your hybrid workforce.³

HP Authentication Suite

Extend modern authentication to print devices with HP Authentication Suite. A toolkit consisting of an authentication solution and a companion mobile app, enabling customer identity and access management.

HP Print Security Software Solutions provide policy-based device management, and print management driven by user authentication. Data analytics and modern authentication is extended to print devices through a toolkit enabled by a secure mobile app and device-based authentication experience.

Learn more at hp.com

1. HP Advance: HP Advance works with most network-connected printers and MFPs. On-device authentication requires HP FutureSmart firmware 4.8 or newer. Supported card readers include X3D03A (HP USB Universal Card Reader) and Y7C05A (HP HIP2 Keystroke Reader). Internet connection required for some functionality. For more information, see hp.com/go/advance
2. HP Security Manager: HP Security Manager must be purchased separately. For details, see hp.com/go/securitymanager
3. HP Secure Print and Insights: HP Secure Print works with most network-connected printers and MFPs. On-device authentication requires HP FutureSmart firmware 4.8 or newer. Supported card readers include X3D03A (HP USB Universal Card Reader) and Y7C05A (HP HIP2 Keystroke Reader). Internet connection required for some functionality. HP Insights is a web-based application that requires Internet access. It is bundled with HP Secure Print and can also be purchased separately. For more information, visit hp.com/go/secureprint
