

Discover smart printing

with HP Large Format printers and HP PrintOS

Get more out of your HP large-format printers with HP PrintOS¹

Today's print service providers (PSPs) are expected to deliver more than ever before—more print jobs, shorter runs, and high customization. As digital print production begins to exceed the capabilities of existing workflow techniques, PSPs want greater efficiency and control—from start to finish. HP PrintOS can help you achieve these objectives—enabling unprecedented line-of-sight into your business, simplified production processes, and new opportunities for growth.

The power of HP PrintOS

A cloud-based operating system, HP PrintOS drives productivity and inspires innovation with a unique suite of apps that deliver greater control while also simplifying production processes.

Get control over your fleet production

Stay on top of production even when you're away from your printer, and get data-driven insights for better decision-making and continuous improvements.

Easily configure your substrates remotely

Put an end to repetitive and time-consuming processes. Backups are automatic, and you can easily restore your printers' substrate configurations.

Boost your productivity

Learn how to maximize the potential of your devices and boost your business productivity by growing your knowledge on HP technologies.

Focused apps drive successful outcomes

Whether you're looking to simplify workflow, boost productivity, drive higher innovation, or grow your business, tap into a broad range of PrintOS apps that increase your competitive advantage.

Improve operational excellence with **PrintOS Print Beat**. Remotely monitor your print production, access and download printer job information and make effective data-driven decisions with accurate and updated information - at your fingertips.

Remotely configure large-format printers from any location, at anytime with **PrintOS Configuration Center**. Get real-time recommendations about actions to take with your fleet, and never worry about losing customized substrate profiles with automatic backups.

Maximize your productivity and business success with **PrintOS Learn**,² the central learning platform for your print organization. Consume and track personalized and continuous learnings based on your profile and device, always available at your own pace.

Confidently print unattended by monitoring printer status and completed jobs. Immediately identify printing issues and get control over your fleet production virtually anytime, anywhere with the **PrintOS Mobile App**.³

Save time by easily opening and tracking all service cases from a single view, increase printer uptime with remote support for more direct communication, and receive real-time status updates through a single portal with **PrintOS Service Center**.⁴

Grow your demand, save time, and avoid print errors with **PrintOS Applications Center**, enabling your customers to design a variety of large-format applications - from wallcoverings and banners to roll ups and stickers - in just minutes.
