

COLOR
YOUR WORLD
with
HP INDIGO ELECTROINKS

COMMERCIAL PRESSES

OVG (ORANGE, VIOLET, GREEN)

Achieve a wide on press color gamut and highly accurate spot color emulations.

SILVER

Metalize the color gamut and gain digital flexibility and the ability to deliver high-value applications, while saving on media costs.

FLUORESCENT YELLOW, GREEN, ORANGE, AND PINK

Produce radiant, eye-catching colors that brighten up the color gamut and glow in the dark under UV light.

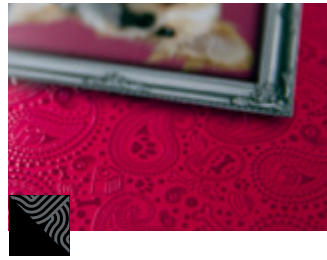

SPOT INK

Mix and print spot colors with the widest off-press color gamut, for accurate brand colors and maximum consistency.

ELECTROINK PRIMER

Expand your substrate range, even to standard offset stock and specialty papers, with ElectroInk Primer selectively applied only in the areas with images.

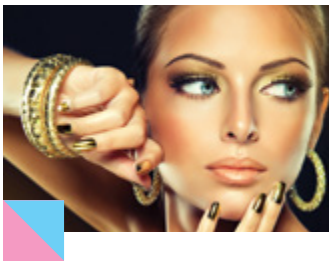

TRANSPARENT

Create original, decorative prints by adding a delicate spot digital marking and enabling raised and textured effects.

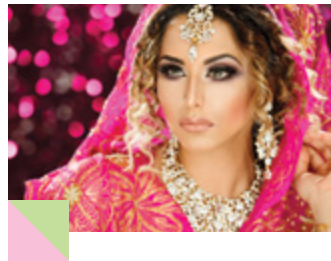

PREMIUM WHITE

Deliver bright white and an opaque white backing for enhanced colors on colored, metalized, kraft, and clear substrates. Produce the widest range of opacities and improve your efficiency with fewer hits of white ink.

LIGHT CYAN AND LIGHT MAGENTA

Enhance the quality of photos up to silver halide-level, with reduced granularity, smoother tone transitions, and saturated colors.

VIVID PINK AND VIVID GREEN

Enhance the quality of photos with rich, deep colors and extend the color gamut, reaching also vivid blues

INVISIBLE YELLOW

Offer high-value invisible security features, including static and serialized codes, that match brands' and authorities' requirements and standards for security printing.

WHITE

Create new highlights on a variety of colored, metallic, and transparent media.

LIGHT LIGHT BLACK

Enhance the color and black & white photo quality with accurate colors, smooth highlights, and no rosettes in dark areas.

INVISIBLE RED

Offer creative and surprising promotional effects with invisible ink that is red under UV light.

EASY RELEASE (SCRATCH OFF)

Reach endless design possibilities with a full digital graphic scratch and reveal solution.

DIGITAL MATTE

Create eye-catching contrast and a textured look with a matte effect on gloss substrates.

LABELS AND PACKAGING PRESSES

OVG (ORANGE, VIOLET, GREEN)

Achieve a wide on-press color gamut and highly accurate spot color emulations.

FLUORESCENT PINK

Produce radiant, eye-catching colors that brighten up the color gamut and glow in the dark under UV light.

PREMIUM WHITE FOR SLEEVES

Offer an easy on-press solution for achieving low friction (COF) layer as part of the white backing, specifically suited for sleeves.

INVISIBLE YELLOW AND BLUE

Offer high-value invisible security features, including static and serialized codes, that match brands' and authorities' requirements and standards for security printing.

FADE RESISTANT YELLOW, MAGENTA AND ORANGE

Offer full CMYK OVG fade resistance for outdoor applications with an ink set reaching blue wool scale 6-7, with violet for packaging.

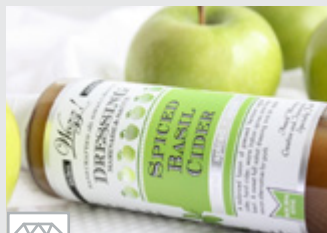

WHITE/STANDARD WHITE

Create a white backing layer on a variety of colored, metalized and transparent media.

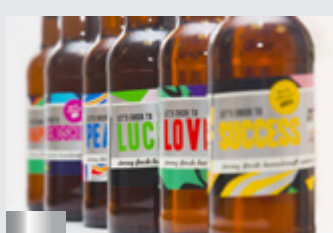

SPOT INK

Mix and print spot colors with the widest off-press color gamut, for accurate brand colors and maximum consistency.

PREMIUM WHITE

Gain high performance and increase productivity by printing white with the widest range of opacity levels.

SILVER

Metalize the color gamut and gain digital flexibility and the ability to deliver high-value applications, while saving on media costs.
