

HP Reverb Virtual Reality Headset - Professional Edition

Transform your expectations of VR. With double the resolution¹ for next generation clarity, take your content to another level with this ultra-light, ultra-immersive headset that's changing the game.

¹Compared to HP Windows Mixed Reality Headset, Professional Edition

Lifelike VR like never before.

Discover a multi-sensory experience like no other with our next-level headset. A staggering 2160 x 2160 panel resolution per eye, 114° field of view, plus integrated spatial audio and dual smart assistant supported mics lets you harness the full immersive power of VR.

Lighter, smaller, sleeker.

More streamlined and more wearable¹, this super light HMD offers long-lasting comfort, giving you deep immersion and a natural viewing experience in every session. It's innovation worn lightly.

¹Compared to HP Windows Mixed Reality Headset, Professional Edition

Worry-free workplace deployment

Disrupt your industry, not your workplace. Windows MR and SteamVR compatibility plus integrated Bluetooth® makes for easy syncing and superb controller tracking. All the latest tech, none of the hassle.

1 HP Reverb Virtual Reality Headset - Professional Edition is not recommended for children under the age of 13. All users should read the HP Reverb Virtual Reality Headset - Professional Edition User Guide to reduce the risk of personal injury, discomfort, property damage, and other potential hazards and for important information related to your health and safety when using the headset. Windows Mixed Reality requires Windows 10 October 2018 Update installed on the workstation or PC. Features may require software or other 3rd-party applications to provide the described functionality. To minimize the possibility of experiencing discomfort using a VR application, ensure that the PC system is equipped with the appropriate graphics and CPU for the VR application. For HP workstation VR ready recommended configurations, see: <http://www8.hp.com/h20195/v2/GetPDF.aspx/4AA6-9646ENW.pdf>

2 To enable full 90 fps performance, a DisplayPort™ 1.3 or later connection is required with the graphics solution provided by the PC.
