

Realize the benefits of modern IT

Modernize your IT environment with HP Adaptive Device Management, a service that helps your organization bridge the move from a complex on-premises infrastructure to more efficient IT operations.¹

Deliver a hassle-free
IT experience
to your employees

Enable your people to work with maximum productivity with devices optimized for them, automated updates, and anywhere, anytime access to apps.

Smart device
management

Let HP manage the devices in your organization with proactive support, insightful analytics, and quick device replacement, resulting in more uptime.

Improve your
security position

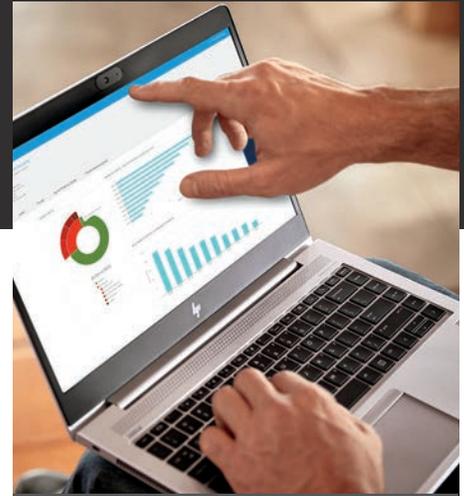

Fine-tune the endpoint security in your organization with proactive monitoring, scaled compliance and remediation, and hardware-enforced threat protection.²

A better technology experience

Better device management

Better security

Always up to date

Maximize your investment and experience higher productivity and less downtime with continuous, automated updates to your Windows and Office 365.

See immediate productivity

Empower employees to get right to work on a new PC with just a few clicks and minimal IT intervention with Windows Autopilot.³

Support when and where you need it

We're just a click or call away with HP Factory Services in 180 countries around the world.

Streamline infrastructure

Optimize efficiency by moving on-premises workloads, including local app and policy distributions, to the cloud.

Turn to device management as a service

Better allocate your IT staff by having HP manage and secure your Windows devices.

Keep users happy

Reduce employee downtime with device replacements conveniently delivered through HP Tech Café Market Smart Lockers.⁴

Reduce risk exposure

Experience protection that's always on with proactive Windows features, secure browsing, and built-in security on HP Elite PCs.

Hands-on protection

Trust HP to monitor security compliance for your devices with HP Service Experts who can implement and enforce your device security policies.⁵

1. HP services are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.
2. Hardware enforced threat protection is available through HP Sure Click, which is available on select HP commercial devices, or HP Sure Click Advanced, the underlying technology in HP Proactive Security.
3. Autopilot prerequisites include Azure AD Premium P1 or P2 and Microsoft Intune or other MDM service to manage your devices. Some HP security features must be provisioned separately using the HP Manageability Integration Kit. Contact your HP account representative or authorized HP reseller for more information.
4. Sold separately.
5. HP Service Experts who conduct threat analysis and monitor isolation activity are available in the HP Proactive Security Enhanced Plan, which is sold separately.
