

PC support for the anytime, anywhere worker

Identify, prevent, and resolve employee device issues

When PCs don't work, your employees can't, either

Keeping your employees connected, productive, and secure in a blended work environment is no easy feat. A hybrid workforce support service can help.

HP Active Care leverages the telemetry power of the Workforce Experience platform to proactively monitor device health. The predictive insights² and automated service ticketing addresses device issues—before a device failure causes business disruptions.

HP ACTIVE CARE SERVICE

Keep your people and PCs up and running with predictive insights that help you stay ahead of business disruptions.^{1,2}

MINIMIZE DISRUPTIONS

Keep your workers up and running in the office or on the go. HP Active Care fast tracks issue diagnosis and resolution, getting employees back to work quickly.

QUICKLY RESOLVE ISSUES

Avoid productivity slowdowns with monitoring that proactively identifies issues and automates help desk tickets, prompting repairs to be scheduled at your convenience.

KEEP YOUR DEVICES IN PEAK CONDITION

Extend the life of your hardware by monitoring the health of every employee device. Quickly identify needed repairs before they impact device functionality.

Fast IT support, when and where you need it

Keep employees engaged with device support services wherever work happens. Available on most HP commercial notebooks and desktops, HP Active Care delivers fast device resolution and replacement, even across a geographically distributed workforce.¹

Help employees stay productive and happy with:

- Device health monitoring
- Predictive insights²
- End user alerts and automated ticketing
- 24x7 remote support
- Next business day onsite support from an HP expert

Stay a step ahead with the HP Workforce Experience platform

Improve uptime and performance across your HP devices with predictive analytics, insights, and automated ticketing for repairs—all from a single, easy-to-use dashboard that aggregates critical data from your endpoint devices and applications.

Optional add-on features

Defective Media Retention

When storage devices fail, maintain control of the defective media in a way that meets your security standards for protecting sensitive data.^{1,3,4}

Travel Support

Provide additional device support while your employees travel on business in more than 90 countries.^{1,3}

Accidental Damage Protection

Safeguard your hardware investment against unforeseen events. Repair or replace your PC when accidental drops, spills, or electrical surges harm your device.^{1,3}

Support employees, wherever they work

When your employees are everywhere, your PC support has to be too. With HP Active Care, count on remote technical support and onsite repair that troubleshoot HP device problems wherever and whenever users need help.

Automated device health monitoring and predictive analytics head off problems before they impact employee productivity. Rapid device repair and replacement keep your people and PCs running, even across a global hybrid workforce.
