

# Simplify the move to modern IT with HP Device Provisioning Services

Streamline new device deployments, from planning to support.

When you move to a modern IT environment, it's often a challenge to provision new devices. Simplify the process with HP Device Provisioning Services,<sup>1</sup> a comprehensive suite of services that helps lower costs, improve the user experience, optimize productivity, and enable faster deployments for modern IT environments.

## Experience instant productivity

Realize the time savings and productivity benefits of factory provisioning when you deploy fully configured devices that are cloud-ready.

## A better out-of-box experience

Reduce IT touchpoints and achieve an optimal user experience when devices are pre-provisioned at the factory prior to delivery.

## Ease the burden on your network

Avoid bandwidth constraints that can cause delays and downtime when large apps are downloaded from the cloud at first boot.

## Let HP do the work

Enjoy a simpler, low-touch device deployment process that's streamlined for modern IT environments.

# Device provisioning for modern IT.

Modular services designed to help you with the challenges of planning for, moving to, and provisioning new devices from the cloud.

- **HP Discover, Design, and Integrate Workshop**

Work with HP technology experts to define your architecture requirements and the integration points necessary to achieve your future workplace goals.<sup>2</sup>

- **HP Provisioning Package Create Service**

Choose to have HP create provisioning packages on your behalf to contain the applications and settings you want installed at the factory.

- **HP Provisioning Package Install Service**

Streamline and improve the out-of-box experience and reduce what needs to be provisioned with factory installation of your packages.

- **HP OS Version Control Service**

Enjoy the flexibility to choose a previous version of Windows 10 that has been tested and validated in your environment.

- **HP Sure Recover Custom Restore Service**

Take advantage of the HP Sure Recover Gen3 feature to automatically restore the device to a custom configuration without IT involvement.<sup>3</sup>

- **HP Provisioning Package Update Service**

Let HP take care of the burden of keeping your provisioning packages updated over time due to updates, additions, and changes.

- **HP Provisioning Connect Service**

Get employees up and running at home or in the office with new PCs provisioned and personalized from your cloud tenant before they ship from HP.

## Key benefits

### Optimize the experience

with devices pre-provisioned in the factory.

### HP expertise you can trust

if you don't have the resources in-house.

### Lighten the network load

and the effects of slow connection from the cloud.

### Reduce high-touch deployments

and let IT resources focus on other priorities.

### Personalized provisioning made easy

with Windows Autopilot for pre-provisioned deployment<sup>4</sup> performed to your cloud tenant.

### Get back to business fast

with HP performing the device provisioning.

### Simplify complex provisioning scenarios

with HP's support for hybrid and co-managed environments.
