

Get devices ready for out-of-box productivity

HP Configuration Services

Reduce strain on IT and deliver great device experiences for employees, no matter where they work.

HP Configuration Services ensure your team is productive to their maximum potential from day one. Lighten the load on IT with zero touch device customization performed during the manufacturing process.

Save IT time, money, and resources

Ensure PC fleet standardization for easier support and maintenance

Speed up employee time to productivity

Enhance physical device management and security

HP Image and Software Configuration Services

Remove the burden of device imaging, updates, and application installation so your IT team can focus on more important business priorities. HP will tailor PCs to your IT requirements so they're ready to use straight from the factory.

HP Hardware Configuration Services

Leverage HP's industry-leading factory, procurement, and integration processes to seamlessly add non-standard components to your devices. HP will procure, test, and integrate third-party hardware components at the factory during the manufacturing and build process to help ensure that devices are delivered ready to use.

HP Labeling and Tagging Services

Keeping track of IT assets across multiple sites can be complicated. With HP's tagging capabilities, HP can apply a variety of standard or customer-provided labels to help make devices easier to track, and service and secure hardware.

HP's packaging drop-in box capability lets you deliver complete solutions to employees with HP and third-party hardware, accessories, and custom documents delivered as one package.
