

Z by HP Data Science Stack Manager

Fast, convenient access to software and open-source tools

42%

of data scientists say configuring environments is a time suck.¹

Stack the deck in favor of data scientists.

hp.com/datascience

Stop the time suck

Save time and focus on the work: **More time to discover with automatic updates.** Curate the stack: Select, install and access popular software and open-source tools for Windows or Ubuntu. Customize the environment: Easily manage programs as workflows change. No more wasting storage.

Z Stack Manager² for Windows and Ubuntu

HP curates Z Stack Manager so you and your team experience worry free version control while dependencies vanish. Access, curate and customize popular tools on day one. Automatic updates save time and avoid security holes and support tickets.
