INDUSTRY:
Paint and Coatings

Customer Profile

A US paint and coatings manufacturer needed to print high-quality, full-color GHS product labels on demand, in precise quantities.

Approach

NeuroLabel built on a longstanding partnership with HP to create the Callisto A3 label printer, featuring HP PageWide full-color print engine, HP Fixed Imager 1000 (FI-1000), and HP water-resistant pigment inks.

Business Outcomes

NeuroLabel's customer can print the right number of high-quality labels at speed and when needed, responding to demand, not forecasts, and eliminating obsolete inventory.

HP Partner Product

The NeuroLabel Callisto Roll-To-Roll System features HP FI-1000, including HP PageWide technology, Bar-in-Box unit, and HP pigment inks.

with **NeuroLabel**
Printing Solutions

“The ongoing collaboration between the NeuraLabel and HP technical and engineering teams to deliver a world class solution has been outstanding.”

Duncan Griffiths, VP Global Sales, NeuraLabel

Challenge

With a huge range of paint and powder coating products, it was expensive and inefficient for NeuraLabel's customer to stock large quantities of pre-printed labels, with some inevitably going to waste. Instead, it needed an easy-to-use, on-demand printing system that could produce high-quality labels at speed, in the exact quantity required, responding to confirmed orders rather than forecasts.

Short-run,
on-demand
GHS labels

FI-1000

Flexible and
waste-free

Solution

The NeuraLabel Callisto Roll-To-Roll system, featuring HP FI-1000, Bar-in-Box unit with printhead, service tray and ink delivery system, applying durable, water-resistant pigment inks. Full-color labels are printed at 90 feet per minute, on continuous media ranging from 1 to 12" wide. NeuraLabel offers on-site warranty that includes printhead replacements. A user-friendly touchscreen makes the tabletop Callisto easy to operate and maintain.

Outcomes

NeuraLabel's customer can respond immediately, efficiently, and precisely to every confirmed order, producing outstanding quality, pin sharp labels at high speed, eliminating waste and saving inventory space and management time. The compact Callisto operates seamlessly alongside the label application process, with high-capacity ink cartridges keeping machines running and minimizing replacement cycles.
