

Christmas Papercraft

By Jess Deacon

Print out and build your own papercraft decorations and party wear this Christmas and New Year!

The series includes: 2 table centrepieces, 2 tree ornaments, 1 mask, 3 mini presents and 2 party hats, with instructions on how to construct each one.

#3 Angel Tree Ornament

Christmas Papercraft

By Jess Deacon

#3 Angel Tree Ornament instructions

- 1 Cut out all parts. Use a craft knife for best results. Also cut out the internal shapes marked with an X on parts 1 & 2.
2. Carefully fold along all fold lines (see key). Before folding it is recommended to score the line lightly with a craft knife or a ballpoint pen that no longer has ink in it. This will make folding easier and more precise.
3. Take parts 1 & 2 and glue together back to back, so that the printed sides are on the outside. Leave the head part unglued for now.
4. Take the part 3 strip with the mountain fold lines and form a loop (but don't glue yet), with the printed side on the outside. Pinch the two ends as the fold lines suggest. Now take the other strip (with the valley fold lines) and form a loop with the printed side on the inside. Pinch the two ends as the fold lines suggest. Now glue the second strip inside the first strip (so that the loop is coloured on both sides). The folded ends are now glued together, closing the loop, with one end sandwiched between the other.
5. Now place the loop between the two head pieces (that you left unglued earlier) and glue together to fix in place.
6. Take half of the part 4s. Put glue on the back (white side) of one of the sides and glue to the back of another. Repeat this until you have 4 x part 4s stuck together in a fan shape. Put glue on the two remaining white sides and stick onto the front.
7. Repeat this action with the remaining part 4s, this time attaching to the back of the angel.
