

# Poly Savi 8220 Office Stereo DECT 1880-1900 MHz Headset

## Power through the noise

Hearing every word clearly on a call is not a nice-to-have, it is a must-have. With the Poly Savi 8200 Office series, you can tune out noise and nearby conversations with noise-canceling microphone plus close conversation limiting.

## Freedom to roam

Being able to talk for a long time on a single charge means work gets done. And with the freedom to roam up to 590 ft/180 m means you can keep the calls going, even away from the desk <sup>1</sup>.

## Multi-device connectivity

Today's enterprise and contact center professionals work on a range of devices. Savi 8200 Office Series headset systems have 3-way connectivity - computer, desk phone and mobile phone - for convenient conferencing on up to two devices at once.

## Footnotes

### Messaging Footnotes

<sup>1</sup> Line of sight from computer.

<sup>2</sup> Visit [www.poly.com/savi-8200-office](http://www.poly.com/savi-8200-office) for more detail.

### Specification Footnotes

<sup>1</sup> SoundGuard Digital Plantronics owns sophisticated algorithms including: Protects against Acoustic Shock by limiting sounds to below 118 dBA; G616 anti-startle protection that limits the noise level to below 102 dB SPL and is therefore compliant to the Australian Communications Industry Forum (ACIF) G616 recommendation; Average daily noise exposure measures and controls sound to prevent the average daily sounds exposure from exceeding 80 dBA or 85 dBA time-weighted average (TWA).

<sup>2</sup> Requires Poly Lens Desktop App to enable SoundGuard Digital features.
