# Harness insights for better decision-making.

## Take charge of your devices from anywhere.

Make it easier to manage your devices across your workforce by leveraging insights<sup>1</sup> that provide visibility into the type, location, and owner of each device through a single dashboard.<sup>2</sup>

## Access HP warranty data to drive smart decisions.

Give IT administrators the power to identify when a device has support available by accessing the device warranty status<sup>3</sup> to keep your employees up and running.

## Assess, don't stress - plan upgrades to keep your PCs performing.

Say goodbye to the hassle of upgrading your device operating systems to Windows 11 across your workforce with visibility into which PCs are ready to make the switch.

## Set and forget policies with automated BIOS updates.

Keep security top of mind by granting IT administrators the ability to remotely manage and automatically update BIOS policies<sup>4</sup> to help mitigate potential security threats.
