

HP
INDIGO
DIGITAL PRESS

69000

The Certified Pre-Owned¹ HP Indigo 6900 Digital Press enables you to print nearly any label & packaging application at any run-length in a simpler, more productive and profitable way.

 **CERTIFIED**
Pre-Owned

THE INDUSTRY BENCHMARK FOR
NARROW-WEB DIGITAL PRODUCTION

Driving unmatched quality, productivity and versatility at never before seen economics

Changes in consumer behaviour and market trends are prompting brands to adapt and evolve, constantly looking for ways to SPEED time to market, DIVERSIFY their business, ENGAGE better with customers, while being ECO-FRIENDLY. For converters, this translates into a dramatic shift from traditional long runs to short runs and “new” long runs, containing multiple SKUs, brand protection and variable data.

Built on the foundation of the market-leading narrow-web printing solution for digital labels and packaging production, the HP Indigo 6900 Digital Press enables printing of any label, at any run-length, in a simpler, more productive and profitable way, and at an attainable price.

Say YES to unmatched versatility and open new market opportunities.

Be productive - increase productivity and put automation to work for you.

Stand out by relying on Indigo’s renowned print quality.

Our certified pre-owned program sends presses through a strict approval process that includes a factory assessment, renewal process, and upgrade by HP technical experts². Take advantage of this unique opportunity to experience the unmatched digital quality and advanced capabilities that define the HP Indigo digital printing portfolio—for a whole lot less.

Boost your sustainability

The HP Indigo 6900 Digital Press is manufactured carbon neutral, and offers reduced production waste, a takeback program, and energy efficiency. Certified with the Intertek Green Leaf Mark. The Regenerated Imaging Oil (RIO) system allows the press to be self-sustainable in imaging oil usage.

Additionally, to reduce the impact of printing on the environment, the CPO program enables HP Indigo and its customers to engage in a circular economy by taking back previously owned Indigo presses and installing them at new customer sites.

Be productive

Streamline production by utilizing a whole new set of powerful tools and systems. Enable an all-digital production floor, powered by the best E2E solution and user experience available in the industry.

Powerful print server. Optimise and control production, increase press utilisation with cutting-edge RIP capabilities, and expand fleet connectivity by utilising our new, powerful, scalable and cloud-connected DFE - HP Production Pro for Indigo Labels & Packaging

Enhanced Productivity Mode (EPM). Use three-colour printing to increase throughput by 33%, with 25% less energy consumed.

Colour automation and consistency. Advanced colour automation, sophisticated colour matching tools, and shorter colour calibration (X2 less substrate) make it fast and easy to hit brand colours with extreme accuracy, consistency and repeatability from the first print to the last, across presses and sites.

Access HP PrintOS⁺ anywhere, anytime and get more out of your HP Indigo presses. PrintOS⁺ is a collection of web and mobile apps that support the efficient production of labels and enables customers to simplify and automate production processes.

Workflow & Converting solutions. Include full range of inline and offline label converting systems, allowing access to a complete ecosystem of end-to-end automation, from order to fulfilment, enabling converters to boost profitability, increase output, save time and reduce costs.

Automatic Alert Agent. Tight process control with high detection rate using machine learning algorithm.

Splice detector. Enable continuous printing by automatically detecting media splices.

Keeping you up to date.

Many press enhancements and upgrades are available as options for HP Indigo WS6000 Series Digital Press owners.

CO₂ neutral

Say YES to unmatched versatility

Endless applications. Converters can produce nearly any narrow-format label, shrink sleeve, IML, wrap-around labels, flexible packaging and folding cartons job, with easy and quick changeovers.

Widest media gamut. The press supports the widest range of media in digital production including synthetic and paper substrates from 12-450 microns (0.5 to 18 pt). Print on either pre-optimised substrates or standard off-the-shelf materials using inline or offline priming solutions. Many eco-certified substrates as well as environmentally friendly primers, varnishes, and adhesives are supported.

High-value colours. Add value to any application with our extended colour gamut, including the ElectroInk Silver, Fluorescent Pink, and invisible inks.

Widest white portfolio. Choose from a wide range of opacities, including the ElectroInk Premium White, a versatile, opaque white, delivering up to silk screen white opacity in a single print process with a thin white layer, fully dried and cured on impact.

Enhanced resistance. Address high-performance applications with Pack Ready for Labels, designed to improve the labels’ resistance against water, chemical and mechanical exposure.

An upgraded In-line Priming (ILP) unit makes for enhanced press utilization, and better serviceability.

Production flexibility and breakthrough simplicity. Simplify embellishments and accelerate time-to-market by integrating digital embellishment solutions including eye-catching print-over-foil designs using the in-line KURZ DM-Jetliner[®] and digital foil, tactile and spot varnish using an off-line ABG DS3 with digital modules.¹

Unlimited designs. HP Mosaic variable design technology enables a one-of-a-kind, memorable customer experience and adds value to products. It automatically generates millions of unique designs from a fixed number of seed patterns and colour shuffling capabilities.

Brand protection. Provide brands with the tools necessary to obtain top quality layered protection, by offering a wide range of security features including microtext, track & trace solutions and invisible security inks, all printed on one press in one pass.

Stand out with Indigo's leading quality

Meet the most stringent corporate branding requirements with gravure-matching quality, delivering high resolution printing and perfect registration with HP Indigo's superior Liquid Electrophotography technology (LEP). Brands around the world use the HP Indigo WS6000 Digital Press Series for its print quality and versatility to respond to market challenges, optimise their supply chain, and accelerate time-to market. HP Indigo's powerful variable data capabilities provide added value for brands in the realm of consumer engagement.

Widest digital colour gamut. Reach up to 97% of PANTONE® colours on press using CMYK or HP IndiChrome's 6 or 7 colour process. True spot colours can be ordered or mixed off-press with the HP IndiChrome Ink Mixing System for outstanding Pantone-approved solids.

High resolution printing. HP Indigo's Liquid Electrophotography (LEP) technology, delivers crisp attractive images and smooth vignettes with a very thin ink layer that gives uniform gloss between the ink and substrate.

One Shot technology. All colour separations are transferred simultaneously in a single pass on the substrate, for accurate and repeatable colour-to-colour registration, including on heat-sensitive materials.

Intelligent colour management. The Colour Automation Package guarantees standards-matching colour accuracy and consistency. A built-in spectrophotometer and software tools simplify colour management and eliminate the need for manual calibration processes.

[1] Pre-owned HP Indigo digital press availability varies by press return rate and geographical location. Contact your local HP Indigo representative for availability.

[2] Proactive replacement is performed only on high "wear and tear" parts. "Wear and tear" parameters vary depending on the specific part. New parts will be used for replacement. Press covers are not replaced and might present minor visual defects (i.e., scratches, etc.). Press will retain its original serial number and impression counter.

PrintOS^x
Unleash the performance of your HP Indigo press with a suite of solutions that enables you to create your Print Factory of the future.

SERVICES
Enable your operator to get the most out of your press by building his self-sufficiency through knowledge, an on-press platform and expert support.

MEDIA
Lead, innovate and create distinct and incredible products for your customers with the most diverse media on hand.

HP INDIGO SECURE
Apply never-seen-before adaptive security solutions that provide multi-layered digital protection in just one pass.

SUSTAINABILITY
Step right into the forefront by exceeding your customers' demands and lead a new era of responsible printing.

Technical specifications

Printing speed	Up to 30 m/min in (98 ft/min) 4-colour mode Up to 40 m/min in (130 ft/min) Enhanced Productivity Mode Up to 60 m/min in (196 ft/min) 1- or 2-colour mode
Image resolution	812 dpi at 8 bit, addressability: 2438 x 2438 dpi HDI (High Definition Imaging)
Line screens	175, 180, 196, 210 lpi
Image format	320 x 980 mm (12.59 x 38.58 in) maximum
Substrate thickness*	12 to 450 microns (0.5 to 18 pt)
Substrate type	Pressure-sensitive label stock, paper, unsupported films, and paperboard
Web width	Max. width: 340 mm (13.39 in) / Min. width: 200 mm (7.87 in)
Unwinder	Input roll max. diameter: 1000 mm (39.37 in) Core inside diameter: • Standard: 76.2 mm (3 in) • Optional: 152.4 mm (6 in) Max. roll weight: 270 kg (595 lb)
Rewinder	700 mm (27.56 in) max. roll diameter
Print server	HP Production Pro for Indigo Label & Packaging
Press dimensions	Length: 5780 mm (228 in), Width: 3940 mm (155 in), Height: 2108 mm (83 in); Inline Priming Unit: Length: 1410 mm (55 in); Width: 1560 mm (61 in); Height: 1760 mm (40 in)
Cloud connectivity	Via HP PrintOS
Press weight	5400 kg (12,157 lb); Inline Priming Unit: 1800 kg (4000 lb)
HP Indigo ElectroInks	
Standard 4-color printing	Cyan, magenta, yellow, and black
Additional process inks	Standard white, premium white, white for sleeves, fade resistant yellow, fade resistant orange, fluorescent pink, HP Indigo ElectroInk Silver, HP Indigo Invisible ElectroInks (Yellow/Blue)
HP IndiChrome 6-colour printing	Cyan, magenta, yellow, black, orange, and violet
HP IndiChrome Plus 7-colour printing	Cyan, magenta, yellow, black, orange, violet, and green
HP IndiChrome off-press spot inks	HP IndiChrome Ink Mixing System (IMS) for spot colour creation using CMYK as well as orange, violet, green, reflex blue, rhodamine red, bright yellow, and transparent
PANTONE® colours	Supports PANTONE PLUS®, PANTONE MATCHING SYSTEM®, PANTONE Goe™ HP Professional PANTONE Emulation Technology using CMYK on-press; HP IndiChrome on-press; HP IndiChrome Plus on-press; HP IndiChrome off-press (IMS) for achieving up to 97% of the PANTONE® colour range.
Options	
Enhanced Productivity Mode	Enables three-colour EPM printing
Inline Priming Unit (ILP**)	Enables easy on-demand treatment of substrates
Configurations	Dual mode inline finishing connectivity kit, flexible packaging packer arm support in rewinder, Automatic Alert Agent (AAA), Colour Automation Package
Reinsertion	Simplex and duplex capability

* Media characteristics vary. HP cannot guarantee performance of media not listed in the Media Locator and recommends testing prior to use.
