

The image shows a screenshot of the Microsoft Sway application interface. The interface is divided into several sections, with callout boxes pointing to specific features:

- Sway creation:** Points to the top-left corner of the application window.
- Choose the Sway design:** Points to the 'Design' tab in the top navigation bar.
- Access preview:** Points to the 'Play' button in the top-right corner.
- Share the Sway:** Points to the 'Share' button in the top-right corner.
- Access to settings:** Points to the three-dot menu icon in the top-right corner.
- Title element:** Points to the 'Title Card' section, which contains the text 'Title your Sway'.
- Text element:** Points to the text editing area below the title card, which includes a toolbar with options like 'Heading', 'Emphasise', 'Accent', 'Bullets', 'Numbers', and 'Link'.
- Image element:** Points to the 'Image Card' section, which includes an 'Add an image' button and a 'Caption' field.
- Add elements:** Points to the green plus sign (+) button located between the text and image cards.
