

The screenshot shows the HP Sites interface with several callouts:

- Search engine:** Points to the search bar at the top of the interface.
- Create a new site:** Points to the 'Blank' template icon in the 'Start a new site' section.
- Create a site using a template:** Points to the 'Event' template in the 'Template gallery'.
- Access a site:** Points to the 'Example 1' site card in the 'Recent sites' section.
- Filter sites:** Points to the 'Owned by anyone' dropdown menu.
- Use classic version of Sites:** Points to the 'Back to classic Sites' button at the bottom left.

The interface includes a search bar, a 'Start a new site' section with templates (Blank, Class, Club, Student portfolio, Portfolio, Event), a 'Recent sites' section, and a 'Back to classic Sites' button.

The image shows a screenshot of the Google Sites editor interface. The main workspace displays a page titled "Example 1" with a dark header and a large white text area containing "Example 1". The right sidebar contains several panels: "Insert" (with options for Text box, Embed, Images, and Drive), "Pages" (for creating new pages), "Themes" (for changing the site's theme), "Layouts" (for selecting different page structures), and a list of elements to insert (Collapsible text, Table of contents, Image carousel, Button, Divider, Placeholder, and YouTube). The top navigation bar includes a "Publish" button and a user profile icon. A status bar at the top indicates "All changes saved in Drive".

Callouts and their corresponding features:

- Page title
- Make and undo changes
- Preview
- Published website link
- Share with others
- Settings
- Publishing options
- Change theme
- Create pages
- Insert elements
- Page content
