## PROTECTION YOU CAN TRUST

- **A protection-first approach**  
Stop zero-day attacks with a multi-layered defense that combines advanced, next-generation antivirus based on the latest AI techniques like deep learning<sup>2</sup> with isolation<sup>3</sup> technologies to protect your company's data, devices, and employee credentials.
- **Enterprise-grade defense**  
Defend against undetectable threats with enterprise-grade isolation technology<sup>3</sup> that's trusted by government agencies around the globe, and has been adapted for ease of use by organizations in need of additional security expertise.
- **Identity protection**  
Help prevent password theft by alerting and blocking users from sharing login details on known malicious and low-reputation websites.

## SIMPLIFIED SECURITY MANAGEMENT

- **Comprehensive and worry-free solution management**  
Let certified HP Security Experts monitor and manage your endpoint security posture and free your IT resources to focus on strategic projects that benefit your business.
- **Expertly managed by certified security professionals**  
As a managed cloud service, certified HP Security Experts provide ongoing management of the solution to help protect against future attacks with device protection status monitoring, forensic threat intelligence, and analysis.
- **Timely and actionable analytics and insights**  
Monitor the security of your endpoint device fleet through the HP Wolf Security Controller with real-time alerts and insights on attempted threats.

## KEEP EMPLOYEES PRODUCTIVE

- **Invisible layers of protection**  
Help protect employees from cyberthreats without creating barriers to their daily productivity, with transparent protection that works behind the scenes.
- **Freedom to work uninterrupted**  
Give employees the freedom to work unrestricted with full functionality to securely read, edit, save and print Microsoft Office and PDF documents.<sup>6</sup>
